

COULD FAIRLY AWAITS CALL FROM CONTACT MEN

SCENE OF KIDNAPERS IN NEW YORK

Majority of List Well Known in Albany Sporting Circles

Extensive efforts were under way by authorities today to apprehend kidnapers responsible for two abductions—that of Lieut. John J. O'Connell, Jr., in Albany, N. Y., and that of John Factor, Chicago speculator.

Chicago authorities were guarding 40 prominent citizens to prevent abductions after Factor had disclosed that the man who kidnaped him had a book of prospective kidnap victims.

From Albany it was reported members of the O'Connell family are awaiting word from the new list of contact men named in New York newspapers. Buffalo police held suspect in connection with the O'Connell case.

Agents representing the family of August Luer, Alton, Ill., banker, recently abducted, said they had "good news" but refused to reveal its nature.

Albany, N. Y., July 15 (CNS)—Word was awaited today from the kidnapers of 24-year-old John J. O'Connell, Jr., held for \$250,000 ransom, to learn whether anyone on the new list of 13 proposed intermediaries is acceptable to them. So far 34 names have been suggested to the kidnapers. They rejected the 22 men placed on the first two lists submitted in newspaper advertisements by Daniel P. O'Connell, politically powerful uncle of the kidnap victim, who is handling negotiations.

None of the men suggested as go-betweens were connected in advance. Most of them are willing to accept the role of intermediary, but some of them do not relish the undertaking, which might prove dangerous.

O'CONNOR IS WILLING
John O'Connor, one of the men on the third and severest list of proposed go-betweens, said today he would gladly undertake the task if the kidnapers select him. He is one of the four O'Connors—Jim, Tommy, Frank—who run one of the biggest beer parlors in Albany.

"I'd go anywhere and do most anything to get this boy back," O'Connor declared, "but I don't want to become involved. I'm critically sick of the 34 so far named and well known in Albany sporting circles."

INTEREST OF CLAN
A majority of them are recognized as loyal friends of the powerful O'Connell political organization, which dominates Albany public affairs.

It was learned today that all 12 whose names appeared in newspaper advertisements published yesterday in New York City newspapers were proposed as intermediaries, although three of the names were signed to the advertisement.

The O'Connell brothers, Dan and Jim, are greatly interested as a result of having established a contact with the kidnapers. No word had been heard from them for several days, until yesterday, when Dan received a letter signed by the kidnaping youth, asking him to submit a new list because the second list was unacceptable, as was the first.

2 Flyers Defy U. S. Order, Start Lithuania Hop

New York, July 15 (AP)—The monoplane Lithuanians took off on a projected 4,800 mile non-stop flight to Lithuania today, without approval of the American government and with the prospect of the two pilots subjecting themselves to a "spanking" if they should land in any country short of their goal.

The plane, which left Floyd Bennett field at 5:24 a. m. (E. S. T.), flew down by stages between the Stanley Cirrus, Lithuanian-Americans from Chicago.

New Romance

Novelist's Fourth Marriage to Follow Divorce From No. 3

Hollywood, July 15—Just to show that her romancing is not confined to the pages of her popular novels, Nina Wilcox Putnam, renowned writer, plans another approach to the altar in a growing list.

This time Nina has gone across the Atlantic and brought back a wealthy Britisher whose family tree is dotted with earls and non-ordinals and ails. He is Christian Elliot, nephew of the Earl of St. Germans and son of Hon. Christian Elliot. The wedding date is set for next week.

DIVORCE DUE TODAY

The divorce the novelist is seeking from Arthur James Ogil is due to be granted today in New York City. Her marriage to Ogil will follow immediately. Lenore, Mrs. Stewart, will accompany Mrs. Putnam and Mr. Elliot to the place chosen by them for their marriage.

The romance between the blonde fiction writer and Elliot started in England eight years ago. At that time Mrs. Putnam felt he was too young to marry and so she turned to her persistent wooing. After her separation from Ogil, she married a stock broker and third husband of Mrs. Putnam. Elliot came over from England and started his campaign for her hand.

HEIR TO EAKINGHAM
The Germans family is an old one in Great Britain. The present Earl is a bachelor and Mrs. Putnam's fiancé is his direct heir.

Another uncle, Sir Philip Chetwood, is in the British army. The father of young Elliot is head of the British passport department and an old friend of Mrs. Putnam and her family.

Number 4 Mrs. Putnam believes, will be her lucky number. Her previous matrimonial experiences have been much publicized and unfortunate in their endings. Her first husband was Robert Zaukner, her second Robert J. Sanderson and her third Arthur Ogil. All have been named in divorce complaints.

NEW HOPE TO SAVE BANKER

Alton, Ill., July 15 (AP)—Agents who were negotiating for release of August Luer, 77-year-old banker, kidnaped five days ago, announced today "good news" had been received.

Asked if this meant the agents had received a ransom note containing a message from the aged banker, they replied, "That's a suggestion," but refused to amplify the statement.

Unexplained motor trips have been made in the motor car of the missing man by relatives, giving rise to rumors that his release was at hand.

Indications were that Lawrence Keller, Jr., and Orville S. Carr, federal agents, had not made a personal contact with the abductors.

Several demand notes have been received from the reputed kidnapers, but messages did not contain the Luer's assurance in his own handwriting, that he was alive and well.

Such assurance has been demanded by Keller and Carr as a necessary requisite of ransom negotiations. The agents did not make known the amount of money asked for the return of the captive.

It was learned today that all 12 whose names appeared in newspaper advertisements published yesterday in New York City newspapers were proposed as intermediaries, although three of the names were signed to the advertisement.

FEDERAL MEN IN ROCKET PROBE

Federal authorities today entered the investigation of a "dummy" cigarette racket for which eight men have been arrested by Boston police.

Police have seized 200 cases of cigarette cartons filled with blocks of wood, which, if sold, would have netted \$100,000 to the plotters, it is believed.

Federal agents entered the investigation on the copyright angle. The cartons bore the names of the most popular brands of cigarettes and in every way looked like the real thing.

A Connecticut storekeeper today identified two of the eight men, according to police, as men who figured in a sale of him of \$210 worth of the fake cartons.

Such assurance has been demanded by Keller and Carr as a necessary requisite of ransom negotiations. The agents did not make known the amount of money asked for the return of the captive.

STATE AND CITY FORCES JOIN TO FIGHT CRIME WAR

Congress Will Be Asked for Big Increase in Federal Agencies

Washington, July 15 (CNS)—Creation of a super-national police force for the United States may be the answer of the Federal Government to gangster's challenge to the security of the nation.

Neither Atty. Gen. Cummings nor his special assistant, Joseph B. Keenan of Cleveland, named to map out the anti-kidnapper campaign, would comment on the possibility of the federal forces being except to it is among the approaches to the crime problem being given consideration by the department of justice.

Cummings regards certain phases of local law enforcement as having collapsed completely. These agencies virtually appear helpless to protect the public against kidnapers, racketeers, extortionists and other crime activities of that type.

NEW LAWS PROPOSED

The answer, "one official said, is a national police force for the United States, which would protect the public against the nationwide crime wave that is increasing its hold on the country at a frightfully accelerated rate.

Such a force would have to be backed up by state police forces covering such crimes as would come within the jurisdiction of the United States and would increase the authority of the Federal government with respect to law enforcement.

The government already has a nucleus for a national police force in the bureau of investigation of the department of justice.

MOOSE MEN WEAPONS

This is an important law enforcement branch which recently has had the prohibition law added to its duties. The personnel, however, are comparatively small and have few indications point to an increase due to the amazing crime situation.

The proposed force would have an exact police station, with expert undercover men, highly trained in the art of the detection of crime. The suggestion was for a personnel of from 10,000 to 25,000.

KIDNAP PAIR SHOT DOWN

Parsons, Kansas, July 15—Cooly and with deadly marksmanship, Cashier Isaac McCarty, 35, shot down the bank robbers in the Lawrence County State Bank at Alton, and saved his wife from being kidnapped or slain.

One of the holdup men, Kenneth Conn, escaped convict, crouched behind a counter using Mrs. McCarty as a shield, the 30-year-old cashier leveled a rifle from a concealed position above the bank vault and shot Conn under the heart, killing him instantly.

A moment before McCarty had fired a charge from a shotgun which brought down Conn's companion, Alvin Payton with wounds in the head which may prove fatal. Both men were among the 11 who escaped from the Kansas penitentiary Memorial Day by kidnapping the warden, Kirk Prather.

The robbers had planned to kidnap Mrs. McCarty in making their escape, and Conn threatened to kill her unless the firing ceased after Payton was shot. She was uninjured.

MEETINGS FOR ITALIANS AT CHICAGO

Crowd Expects the Supreme Thrill of Great Century of Progress

BULLETIN
Coldwater, Ont., July 15 (AP)—Twelve planes believed to be members of the Balbo armada, passed over here this afternoon headed in a northwest direction.

Coldwater is 85 miles north of Toronto and this report supports the idea that the Italian air fleet was headed northward from its previous position in order to avoid stormy weather and then headed for Chicago.

Chicago, July 15 (INS)—The eyes of the city's millions, first with anticipation at witnessing the end of one of history's most dramatic conquests of the air, scanned the Eastern horizon today for Gen. Italo Balbo and his intrepid Orbetello-to-Chicago fliers.

Long before Premier Mussolini's air minister and his 24 acrobats were scheduled to arrive in the harbor, the shores of Lake Michigan—bathed with a jostling mass of humanity—were in a state of supreme thrill.

They awaited the thrill supreme of a century of progress and the fulfillment of a dream that has haunted the ambitious Italian air minister for ten years.

It was a royal welcome indeed that awaited him. Prince and Princess Royal of the Netherlands, the former Marion Snowden, American heiress.

Richard Washburn Child, the former American ambassador to Italy, headed a group of prominent Chicagoans and Italian-Americans who met Balbo when he transferred from the flagship to a Coast Guard cutter in the harbor to come ashore.

Signor Augusto Rosso, Italian ambassador to the United States, was a passenger on Gen. Balbo's plane, having gone there from Washington to greet the armada.

MEET VISITORS
The official welcome will begin even before the planes have left the grounds. Michigan's Seaside Drive, which will be the first point of view, is being held in readiness to meet the visitors and to see them to the end of the 7000-mile journey.

As the skyline comes into view the American fliers, at an altitude of 4000 feet, will swing into a series of loops, in which they will draw, to meet the visitors and to see them to the end of the 7000-mile journey.

10,000 IN THROG
The official ceremonies will be held at Soldiers' Field, where every one of the 110,000 seats will be occupied. After receiving the welcome of the distinguished visitors, the Fair told the public the others would be free to them.

Washington, July 15 (INS)—Signor Augusto Rosso, Italian ambassador, left here yesterday to meet Gen. Italo Balbo and his air armada, he praised the enterprise of the International Navy Exposition in getting the Italian fleet to the United States of the air fleet's arrival in North America.

He said: "It was the most remarkable speed in transmitting photographs I've ever seen. I am sending copies to Italy."

The photographs, carried by fast airplanes to New York and other cities, showed the arrival of Gen. Balbo and his squadron at Cartwright, Labrador.

Pope to Send Blessing to the Balbo Armada
Vatican City, July 15 (AP)—The Pope's benediction will be added to Premier Mussolini's approval and applause when Gen. Italo Balbo's air armada reaches Chicago.

The Pope today announced his intention of sending a wireless message of congratulations and benediction through Cardinal Mundelein to the officers and men of the acrobatic squadron.

He said he has been following the flight daily, following the flight daily, marking the hope with the Italian fleet upon a big map in the Vatican.

The Pope expressed the keenest gratification over receipt of a letter from the air minister before his departure outlining "the Christian sentiments" of the transatlantic aviators.

1100 NEW STATE PLANTS SHOW PROSPERITY

7.5 Per Cent Gain in Employment and 11.3 in Payrolls

Any doubt that Prosperity was not rounding the corner in Massachusetts was dimmed today by Edwin S. Smith, commissioner of labor and industry.

A survey covering 1440 Massachusetts factories indicated an increase of 7.5 per cent in the number of workers employed in June as compared with the number at work during May, he said.

The report further showed an increase of 11.3 per cent in the total weekly payroll in the state during the same period.

This is particularly noteworthy, Smith pointed out, in view of the fact that the state's output from 1925 to 1932 showed an average decline of 24 per cent in the number of workers and 24 per cent in payrolls.

During the month just ended only one pay cut came to Smith's attention, and that was at the rate of 10 per cent, affecting 76 persons. Against this was news of 47 increases, averaging 31 per cent and affecting 27,000 workers.

The cotton goods, electrical machinery, food and machine shop products and the motor car and truck industries all showed marked improvement. Boots and shoes was the only major industry to show a slight seasonal decline.

BAD EYE LEADS TO ARREST

Alexander Hamilton got Louis Costa of Hanover, into serious trouble today. But Benito Mussolini is going to get him out-of-his-hair.

Costa was arrested in a Washington, D. C., store charged with trying to pass a counterfeit \$10 note on the Federal Reserve Bank of New York, for two alibis.

Hamilton had one bad eye on the matter and the other on the fact that he had a counterfeit \$10 note, after first taking it for a wink.

Costa was questioned by Secret Service Chief Harry Barker and Agent Alvin A. H. Rice. He said he was paid the bill by the store.

He served with Mussolini, the bad eye came back to the name store later to buy a hat. As a result, Hamilton said, Costa, of Hanover, N. H., was arrested. He said he was paid the bill by the store.

Breaks Spine in Slide Out of Prison

Three inmates at the Metropolitan State Hospital, in Waltham, escaped their escape, today, and the result was that one was successful, one is dying, and the other is in the hospital suffering from a broken leg.

The man who escaped was Antonio Tarrano, 34. The identities of the two injured men were not revealed.

According to Dr. Roy Holman, superintendent of the hospital, the three tried to get out by strutting through a wall.

Tarrano reached the ground without difficulty, but when the second man was halfway down the street and he struck on a cement wall, breaking his spine.

When the third patient discovered the sheet had broken he jumped from the third floor window and suffered a broken leg.

The blonde mystery girl who disappeared from a stationer on board the steamer Evangeline from Boston to Yarmouth Tuesday night is now believed to be from Ocean Grove, N. J.

The investigation was shifted from Boston to Ashbury Park, N. J., when it was established by the Boston Evening Globe that the missing girl had purchased some clothes from her bag at Ashbury Park store.

It was learned that a girl, answering the description of the missing girl, was registered on the Evangeline as Mrs. Charlotte L. Starnes, a nurse whose name in Charlotte L. Starnes, who resided in Ocean Grove, N. J.

In the meantime, the girl's father, an Oakland, Cal., business man, received word of his daughter's activities and he notified the police to arrest the couple.

HER PRESS AND LEGAL HUSBAND

Couple Motored From California to Get \$3000 Legacy

A small legacy left her by her Cambridge grandmother brought about the arrest by Cambridge police today on various charges.

Lydia Terra, 38, and her alleged married sweetheart, Ernest Terra, 21, both of Oakland, Cal.

Under the terms of her grandmother's will, the girl could not receive the estate, estimated as being worth \$3000, until she married.

Four weeks ago, she revealed to the police, today, she learned this, and after explaining the matter to her mother, she and Ernest Terra, they both agreed to come to Massachusetts and collect the money.

Terra, according to his story, purchased an expensive candy colored reader on a small payment and they both started to leave the house of the girl's aunt, Mrs. Margaret Martin, in Concord, Mass.

While living in Cambridge, the girl told the police, she visited her mother, Mrs. Emily Cagna, who divorced her father several years ago. She also visited her grandmother's estate in order to effect final arrangements.

The girl admitted, the police said, she introduced Terra as her husband to the trustee. When he asked for a marriage certificate the couple were unable to remain in the state, the minister who officiated. The trustee became suspicious and sought further evidence of their marriage.

In the meantime, the girl's father, an Oakland, Cal., business man, received word of his daughter's activities and he notified the police to arrest the couple.

BETS ON RACES BLAZING CROSS BRING ARREST AROUSES SALEM

A blazing cross at the Salem reservoir in North Beverly affixed today revived rumors that energetic efforts are being made in New England to resurrect the Ku Klux Klan.

Thousands of persons, in motor cars, or at the windows of their homes, saw the fiery cross, and many telephoned the police.

A fire truck and police cruiser were sent to the scene, and after preliminary investigation, inspectors McDonald and Goodie trailed Kienan to Salem, N. H., yesterday. They reported finding \$100 in his pockets, which he said he had won on the races.

Inquiries were made of the state police by Beverly authorities to determine if there is any indication of Klan activities in the North Shore area. No organization of the kind exists in Beverly, so far as the police know.

Kidnap Guards Put Over 40 of Chicago's Rich

John Hertz, Sportsman and Warren Wright Among the Protected

Chicago, July 15—Forty wealthy Chicago residents today were reported under guard and state troopers and city police were patrolling their homes to prevent their abduction by kidnapers.

It was said the action was taken by the federal government after John Factor, the speculator, released recently by abduction after paying a \$50,000 ransom, told of a book of prospects kept by his kidnapers and their business-like organization.

Although a full list of the men being guarded was not revealed by the government agents, it was said the names of Arthur Cullen, grain trader, was included.

Another was John Hertz, sportsman, who said the day and night guard of his home was placed there at the request of the government. Still working on the theory that the Touhy gang was responsible for the Factor kidnaping, authorities were keeping close watch for five men believed to be associated with the hoodlums.

The Federal agent considered as important Factor's imprisonment in a basement the night of his abduction and his statement that his captors told him "It was the first man to be held in that basement, and that I would not be the last."

Factor said they told him they had a list of the men they were going to take and that every one of them would pay.

"This is our business," Factor said one of the men told him, "and it is a good one. We have it down to a science and are making good money. The papers never hear of most of our 'mistakes' because the victim (the victim) isn't healthy to talk."

GARDEN LOVERS ARE STILL MAKING pilgrimages to the North and South Shores to view the mid-season flowers and shrubs which landscape the grounds of beautiful estates along these New Eng-

land shores. Particularly lovely at this time is the luxuriant verdure down through Manchester-by-the-Sea, Beverly Farms and Gloucester... the drive along the coast with glimpses of blue and pink cliffed shore line, masses of blooms against the gray of rock and wall is particularly notable...

Mrs. Greene Houghton is opening her Beverly Farms home high up on a hill overlooking Beverly harbor for tea at 3:30 in the afternoon for visitors to the gardens on Tuesday, July 25, for the benefit of the Massachusetts Society for Prevention of Cruelty to Children...

The gardens will be open from 2 until 6 o'clock and among others will include those of the Misses Hunt, and Mrs. Dudley L. Pickman, Sr., in Beverly on the shore, Mrs. Charles K. Cummings, Mrs. William Endicott Dexter and George C. Green at Fride's Crossing.

There will be a sale at Mrs. Houghton's in connection with the tea. Mrs. F. DeHart Houston is chairman of the committee in charge of garden openings...

On August 2, at Annisquam and Bass Rocks, for the same worthy cause, other gardens will be on view... in case of rain they will be opened the next fair day. Arrows leading to these flowering bowers will be posted along the highways.

Miss Edith Tichnor Sponsors Sale

MEMBERS OF THE COMMITTEE ARE Mrs. Houghton, Mrs. Bernard C. Weld, Mrs. Cummings, Mrs. Neal Rantoul, Mrs. William H. Collings, Mrs. John L. Salt, Mrs. Roger S. Warner, Mrs. Francis Lowell Burnett, Mrs. Morgan Harris assisted by Mrs. Everett Morse, Mrs. Raymond Lapham, Miss Elizabeth Hovey, Miss Marjorie Saltonstall, Miss Margaret Ives, Miss Margaret Emerson and Mrs. Rufus Cushman.

Miss Edith Tichnor is sponsoring the final sale of the Disabled Ex-Servicemen's Exchange, Inc., which will be held at the Hawthorne Inn, East Gloucester, on Saturday...

Other sales will be held at Stockbridge in the Berkshires, opening Monday at the Foundation Shop, with Miss Edith Hastings Tring in charge... assisted by Mrs. Franklin W. Adams and Mrs. William Penn Creson.

Mrs. Thomas B. Gannett gave a large dinner party in Milton last Saturday night for Miss Susanah Ayer, debutante daughter of Dr. and Mrs. James B. Ayer of Milton... The Philip Houghton, the Saltonstall will be at Stockbridge, Mrs. Gannett is staying in the historic old town for the summer, having rented her Manchester by the Sea house to the George H. Swifts for the season...

Rose Gordon Stearn and Jane Smith, two of the popular buds of the past season, are at the Children's Island for a short term of volunteer service... Rose's mother, Mrs. Frank Jencks, is at the Eastern Yacht Club nearby...

Mrs. Stoughton Bell on Visit

MRS. STOUGHTON BELL has gone away from Cambridge for a short visit with her sister, Mrs. Cary, at Edgartown... the Arthur Moors have taken her house at Cohasset for the summer.

Last Sunday the Eastern Yacht Club started in with their evening buffet suppers which are followed by moving pictures... members may bring guests on these evenings...

The season at Marblehead is now in full swing... the play by the North Shore Players given for two nights this week, was a great success...

No more delightful spot could have been found to have such a beauty spot as at the Cohasset and the foot ship Foote at which to dine on warm summer evenings...

...with its long view of the shoreline of the Neck across the bay, twinkling with lights twinkling with the star-strewn heavens, little boats and big, riding easily at anchor in the shining waters, the gardens of the Rockmores waiting for an evening stroll with strains of sweet music in the distance, could Europe offer more... We have been told it could not...

We glimpsed pretty Polly Cunningham with a swan at the evening performance, cozy in a dark sport ulster and dark brown stroller...

Summering at Marblehead

MR. AND MRS. CHARLES H. SHERBURNE and their charming daughter, Miss Charlotte, of Beacon st., are domiciled at their summer residence at 10 Cliff at, Marblehead...

Mrs. and Mrs. Ransom F. Hodges (Hedden Costman) whose marriage took place this spring, are residing at Marblehead and will plan to spend the winter there... there will be quite a colony of young marrieds down that way this winter.

Mrs. Everett Morse and Mrs. Marshall Fabian are actively engaged on a North Shore committee, with John Hays Hammond as chairman, in raising a fund to keep open during the summer months the "one cent lunch" of the Boston Community Center, Volunteers of America, where already over half a million meals have been served to unemployed men and women. MISS MARY WHITWELL GRAY BRIDE IN CAMBRIDGE

MISS MARY WHITWELL GRAY, daughter of Mr. and Mrs. Roland Gray of Highland st., Cambridge, becomes the bride of Mr. Robert Gordon Fairbank, an attorney-at-law, in a ceremony today in Christ Church in Cambridge. The Rev. Mr. Aldrich and the Rev. Mr. McIlwain read the marriage service at 4:30. The church is simply decorated with ferns, lilies and delphiniums.

The bride's gown is of classic ivory satin and with it she is wearing a veil of old family lace which was worn by her mother and by her aunt, Mrs. Henry Tudor, to whom it belongs. Gardenias and lilies of the valley are combined in her bouquet.

Bridal Group
Miss Mary Eleanor Neher of Salt Lake City, Utah, a former roommate of the bride at Mills College, is her maid of honor, and her cousin, Miss Virginia Tudor of San Francisco, Cal., and Miss Katherine Gilchrist of Boston, are serving as bridesmaids. Their dresses are of mousseline de sole, made alike, Miss Neher's pale blue and the bridesmaids' pale yellow. They are wearing shoes of white to match their dresses and carrying bouquets of tallmaen roses and delphiniums.

The bride's mother attends the wedding dressed in turquoise blue lace with a white hat, accompanied by Mrs. Fairbank in a pale blue chiffon dress and matching shoes. Mrs. Fairbank's brother, Mr. William A. Fairbank, is to be his best man, and those serving as ushers are Mr. John Gray of Cambridge, Mr. Douglas Hill of New York, and Mr. Seymour Preston of New York.

Garden Reception
The gardens of the old Gray Homestead on Larch rd., now the home of Mr. and Mrs. Henry Tudor, form a charming setting for the reception immediately after the ceremony.

The bride will leave for her honeymoon on a very blue ship suit with collar and cuffs of white and a navy and white hat. She is a graduate of Winsor School and Mills College in 1922, and a Junior League member. Mr. Fairbank is the son of Mr. and Mrs. William A. Fairbank of Morristown, N. J. He prepared at Groton for Princeton, where he is a member of the Quigley Club, and is engaged to be married to Miss Neher of Morristown after the first of August.

BOOKS---and Many Things
By Charles Hanson Towne
There is a moment in mid-summer, a lavish moment of fulfillment, when a hush seems to come over the green world. It is as though the high tide of the year had been reached, and before sweeping down again toward the decay of autumn and winter Nature pauses to take account of herself.

Such a time comes in July. Even the breeze dies down. The lush grass refuses to move, the branches of the abundant trees do not sway, the birds are all but mute and the hot fire of the sun pours its molten beams from its far-away furnace. Yet how close to us that furnace seems! For a day or two it is as if the earth would be scorched or even dreadfully burned. An ominous silence hangs over everything.

It is the high noon of the year. Even the night is not hot, with no relief from the steaming pressures of the day. The red eyes of heaven are on us, pillars, in all its blistering warmth. There is no escape! Flowers wilt, rivers lie listless and still, and even the strongest battalions of ocean waves wander shoreward with listlessness. There is something terrible in the way the world keeps away and yet definitely falls asleep. The invisible gods have their hands upon their lips. An enormous, world-wide army on the march has suddenly halted, its green helmet dripping with moisture, its floating banners drooping from their exhaustion.

In no other season is the great panorama of Nature thus suddenly brought to a moment of ease and rest. No mid-winter day, eloquent with soft snow, can ever be as restful as this July afternoon. No autumn page can bring this sense of relief, this sense of repose, this sleep. No spring interval before the buds awake and the green of this spring detachment from life it fascinates while it almost frightens us.

And then suddenly, the still air is charged with thunder and across the sky the sun's rays are like fire. The sun is tearing down. It is demolishing what it took such pains to create. She was tired for a little while, and now she is tearing down. She is breathing fire and alighted after this interval of heavy doze she is tearing down in her own sun.

Nature is building all the year, building for this supreme moment. Every ray of her emerald house she sets in its proper place. Every beam of sunlight was carefully wrought. She fixed the blue dome of the sky above it all. And now she is tearing down. It is demolishing what it took such pains to create. She was tired for a little while, and now she is tearing down. She is breathing fire and alighted after this interval of heavy doze she is tearing down in her own sun.

Betty Compton Pays Up Uncle Sam
New York, July 15.—The federal government, it was learned, has collected back income tax claims totaling \$72,000 from Mrs. James J. Walker, the former Betty Compton.

One lien for \$23,492.52 was filed in federal court today and was promptly paid by an agent. Another lien for \$48,507.50 was previously set for \$63,065.65.

Cheerful Costello Trio at Birthday Party

HAPPY COSTELLO CHILDREN IN SHADOW OF MURDER TRIAL
What a cheerful group you see—Anna Marie—Robert—and Jessie Costello, three fatherless children, whose mother will face trial for the killing of their father, William J. Costello, at Salem, on Monday. The seriousness of the future for them is not appreciated—but impending happenings seemingly have not registered in these young lives. It was Jessie's (named after her mother) birthday yesterday. She was 7. There was a happy birthday party. After it was all over they posed for the photographer on the lawn of their home, where their grandfather, Andrew Fyfe, watches over their interests.

A BEAR OF A KISS IN THE DARK AT FRANKLIN ZOO
It was bathing time. It seem to be kissing time, too, as two bears playfully took on their afternoon bath—that lasted for more than an hour. These polar bears ought to be right up there in Greenland, where it is very cold—cold—cold. But being transplanted to a home in the Franklin Park Zoo, much water is needed.

TELEPHONE STOCKS EARN \$2.30 A SHARE

Pres. Gifford States Loss of Phones in Year Less Than Year Ago

American Telephone & Telegraph Co. reports for half year to June 30, 1933, net income of \$66,110,000 equal to \$2.34 a share, compared with net of \$12,210,000 in the first half of 1932, or \$1.33 a share. Earnings by quarter were as follows: first quarter, \$17,120,000; second quarter, \$18,410,000; third quarter, \$18,220,000; fourth quarter, \$12,360,000.

The Associated Companies as a whole did not fully earn their full share of the total for the first half of 1933, but they were within about \$7,500,000 of the \$23,000,000 mark.

Walter S. Gifford, president of the company, said in a statement that the loss of phones in the first half of the year was less than in the corresponding period in the preceding year.

The improvement continued in May and in June when the loss was less than in the corresponding period in the preceding year.

The company's earnings for the first half of 1933 were \$66,110,000, or \$2.34 a share, compared with \$12,210,000, or \$1.33 a share, in the first half of 1932.

Effective date of the merger between State Street Investment Corp. has been extended from July 15 to July 25.

State St. View Is That Period of Quiet Is Wanted

By HUGH E. BRADSHAW

State Streeters are gradually coming to the view that a quiet period is being made by the market to stabilize the share markets. In recent weeks it has been necessary to specify change over in attitude toward the share. It is hoped to elicit such a result.

LORE REMARKS RECALLED

It is an old story that the old-time financial men of the Boston market have a way of looking back at the things that have happened in the past.

Walter S. Gifford, president of the American Telephone & Telegraph Co., said in a statement that the loss of phones in the first half of the year was less than in the corresponding period in the preceding year.

Cost of Living Trend Line Shows Small Change

COST OF LIVING INDEX NUMBERS RELATIVE, 1913=100.

Small but highly significant increase in the cost of living during May of this year is shown in the accompanying chart, specially prepared for the New York American.

Index numbers compiled monthly by the National Industrial Conference Board also depict the heretofore steady decline during the depression and the drastic drop from the high mark of 1920.

In weighing the index numbers, the Board assumes that the average working family spends 20 per cent of its income for food, 20 per cent for housing, 12 per cent for clothing, 5 per cent for fuel and lighting, and 50 per cent for sundries.

More than usual interest is being shown at the present time in the cost of living prices. That a large increase will be reported for the month of June is freely expected, since the natural price advances consistent with normal recovery have been augmented by the inflation influence.

The industrial board's figures, as the chart shows, were begun in 1913, when the index was set at 100. In 1920, when the index was at 160, the average family was spending 160 per cent of its income for the necessities of life.

The average for all items, therefore, was but eight-tenths of one per cent higher.

Market Looking for Short Rest, Says Spectator

The market's apparently tired and would like a respite from all this rattle-dance. Whether it will get a respite or not is another story.

No wonder aggressive production is going sky high with all this nervousness around it.

Reports that the West has been a buyer of stocks can be attributed to the magic of 2 wheat and 1000 of the other hand.

The East, on the other hand, has been selling wheat in the Washington crowd is reported all tight prepared to ride through any anxious that may develop.

On the other hand, with traffic going up steadily and most currencies now earning their face value, the market is not likely to be unduly depressed.

We hear of a good deal of unloading in commercial solvent from the "early birds."

As of Cleveland Trust Co. says "Recovery from depression comes more rapidly, both in this country and abroad, by a restoration of public confidence in the soundness and integrity of the national money."

Our present experience, however, is that the recovery is not likely to be unduly depressed.

The average for all items, therefore, was but eight-tenths of one per cent higher.

English Leaders Opposed to Price Boosting, Says Haney

By LEWIS HANEY

Professor of Economics, New York University

New York, July 15—At the London conference there has been much talk about England and the United States in the matter of the inflation and price work program.

If you look a little closer, however, you find that the English leaders are not so much in favor of a price boost as they are in favor of a price stabilization.

On this point, the question naturally arises: Why not? The English leaders are not so much in favor of a price boost as they are in favor of a price stabilization.

Yesterday's sales \$232,250
Week ago 3,007,500

New York, July 15.—Substantial buying in commodities led the stock market in Wall Street yesterday after a quiet opening. "Wet" issues gained gains of about 2 points, while other groups taken in hand included gold mining, packing and metals in the final hour. Homestake scored 15 points, while Dome, Alaska, and McIntire were up 3 to 3 1/2. U. S. Smelting and Industrial Rayon rose around 4 points each. Rails and a number of industrial leaders were narrow, including American Telephone and Union Pacific.

Advances of 1 to more than 2 points embraced Wilson Packing, A. American Sugar, Great Western Sugar, National Distillers, U. S. Smelting and Industrial Rayon, Smelting, Allied Chemical and International Silver. Stocks closed with a firm tone. Gains in leading shares were well maintained.

Sales to 11 a. m. approximated 1,000,000 shares.

The initial hour active shares worked moderately higher after an irregular start, with the "wet" issue in the lead, showing gains of one or two. The carryover of sales from yesterday was moving within a narrow range. In foreign markets the dollar was well maintained.

Trading held to a relatively quiet pace, with most issues moving within a narrow range. In foreign markets the dollar was well maintained.

Issues showing a quick tendency to rise included U. S. Industrial Alcohol, Alaska, Juncos, McClelland, United Fruit, and American Telephone.

Delaware & Hudson started heavy volume for a time to the bulk of the group, but came to a halt later. Bulls were aided by a bulge in wheat and the strengthening of reports of recovery of the crop reduction plan.

In Chicago prices relatively overtopped all other prices, with wheat leading the way, reaching 13 1/4 cents on the day's first transaction, and then mounting to above 13 1/2 cents.

American Telephone moved narrow, showing a report of the telephone company to the first six months of 1933, showing earnings of \$3.55 per share, as compared with \$3.25 for the corresponding period a year ago. The trend, which was definitely upward in the last year of the month.

Let There Be Weeping in Innesville

THE shocking revelations of crime and racketeering and of the incompetency of the police to rout the underworld of Boston have now produced one favorable and constructive result. Governor Ely has acted quickly and courageously. He has sent a special message to the Legislature in which he condemns the reign of lawlessness and the riot of crime.

He demands authority to constitute a commission of responsible and independent citizens who will investigate the crime orgy, who will fix upon the public officials the responsibility for its dominance and continuance, who will propose the remedies for its elimination, and who will look into court activities.

Conditions in Boston have been outrageous. Gang efficiency reached its highest and most brazen point while police inefficiency attained the lowest depth in its history.

The police were asked by a grand jury for an official list of the recognized gangsters of Boston.

The police submitted a list which was made up for the most part of some persons who sold lemon extracts without a license and of others who parked their cars in the wrong place. Possibly they had parked them in front of common speakeasies and dens of vice and clogged the entrance.

GOVERNOR ELY demanded a complete report by Police Commissioner Hultman and he has submitted a list which was supposed to include 20 common gangsters who could be identified as dangerous Public Enemies. This latest list is as farcical as the first. It includes no "big shots." It is a list of plug-uglies.

This list included gangsters now dead. Perhaps it was expected the Governor would have a good cry for himself.

This list included professional thieves and petty crooks who have been arrested from 10 to 34 times, who have often escaped severe penalties by the courts, and who remain free to practice their criminal careers at the expense of the good people of Boston.

It is not to be wondered that the grand jury declared that Boston is cheated of its right to have faithful, intelligent and efficient police protection.

It is not to be wondered that the Governor of the Commonwealth has demanded that there be AN IMPARTIAL AND COURAGEOUS INVESTIGATION OF CRIME AND POLICE INCOMPETENCY WHICH SHALL NOT BE A FARCEFUL REPETITION OF THE WHITE-WASH INVESTIGATIONS OF COMMISSIONER HULTMAN AND SUPERINTENDENT CROWLEY.

WHO are the real gangsters? Publish their names and drive them out! Who runs the Police Department of Boston, and how and why? Let the public have the facts and exerted in favor of the law-breakers.

Who are the lawyers and politicians, financial men and their "yes men," who constantly represent the criminal gang? Let the public have the facts and exerted in favor of the law-breakers.

Who are the judges that have had these criminals before them year after year and restored to them their freedom to engage again in crime and racketeering?

THE public will want to know whether it is particularly the police, particularly the District Attorneys, particularly the courts or, in general, the whole of them who have been derelict, unfaithful and incompetent.

The farce is over. The old gang must go. From top to bottom. From State st. to headquarters.

Let there be weeping in Innesville.

Save the Dental Clinics Boon to Needy Children

The Guild of St. Apollonia, patron saint of dentists, has adopted a resolution in formal protest against the plan to discontinue the dental clinics in the White Unit.

Perhaps you know that the Forsyth brothers established the Forsyth Dental Infirmary out of the goodness of their great hearts and that part of the large fund bequeathed by George White to the city of Boston for civic purposes was used to establish the White Unit Dental Clinics in connection with the Infirmary.

Unavailable and indispensable service has been rendered by these institutions to the needy children of Boston who could not turn elsewhere for the care of their teeth.

This service should be expanded, rather than curtailed, at a time when economic distress has weighed so heavily upon so many families.

The attitude of the dentists, as declared by the resolutions of the Guild of St. Apollonia, is revealing and very much to their credit. They had every reason to assume that the inauguration of these free dental services would impair their own income as dentists. But from the very start they advocated the Forsyth Infirmary and the White Unit and did their utmost to make both successful.

Good deeds come back home a hundredfold. The experience has been that children learned the importance of dental care and they became regular patients of the dentists when they grew as adults, no longer entitled to the free dental service of these fine institutions.

It Must Be Crushed!

Growing bolder in its raiding,
Challenging and law defying
This most cruel, deadly menace
Constitutes a reign of terror

and ineffective methods
Crank have not destroyed it
Real blows, swift and smashing
Will avail to crush a serpent.

O. O. McIntyre New York Day by Day

In a Flashy Hotel

NEW YORK, July 15.—While redecorating was being done in the family bedroom, I decided to spend a night in one of those flashy old-broadway hotels. I heard of one whose clientele consisted largely of doubtful figures from the White Way.

Who are the clerks who roomed me asked cash in advance and watched the revolving door.

Who are the judges that have had these criminals before them year after year and restored to them their freedom to engage again in crime and racketeering?

THE public will want to know whether it is particularly the police, particularly the District Attorneys, particularly the courts or, in general, the whole of them who have been derelict, unfaithful and incompetent.

Listen, World!

By Elsie Robinson

OUR War—Let's Go!

DISCOURAGED, aren't you, partner?

Desperately worried about bills:

the future? I know, I'm worried, too. And there's no let up. No escape from the nagging dread:

the use of living with the kick all gone!

There's more kick in life for the average citizen than there ever was before. Despite depressing appearances, there's a greater chance. It isn't the sort of kick or change we dreamed of having in the days before the crash. We can't, any longer, wallow and waste, like youngsters let loose in a candy store. These are hungry, hard days—and they're likely to be hungrier and harder before they're through.

YET, IN SPITE OF ALL THAT, THEY ARE THE GREATEST DAYS THE WORKING PEOPLE HAVE EVER KNOWN FOR THIS IS THE WORKERS' FIRST CHANCE TO GET A SQUARE DEAL—AND KEEP IT AFTER HE GETS IT!

There have been depressions before in human history, revolutions—savage, bloody affairs, which seemed to result in victory for the under-dog. But the victory never lasted. It never lasted, because the under-dog could only think and fight like a dog. He was not privileged to think and fight like a man. So the Master Mind, on the aristocratic shoulders, took the under-dog's victory away almost as soon as it was won.

And now we are in the midst of another depression, another revolution. But the picture is changed. RAGED, hungry, cheated men are more hungry for their rights. But they are no longer fighting aimlessly, ignorantly. They are fighting with weapons which ragged men have never had before.

You and I, partner—the workers of 1933—have information and training which even those victorious Master Minds of those other revolutions did not possess. We, ourselves, have built this world in which we are living, and we know what it's all about. We read daily papers. We are educated in free public schools. We listen to nightly radio broadcasts. We know all the tricks, and we have the technique. Bent! Sure we are. All of us worried and mad. Many of us homeless, hungry, ragged. Bent! Yes. BUT NOT BROKEN!

For though the powers-that-were could strip us of our money, our jobs and our chance, THEY COULDN'T STRIP US OF OUR MAKINGS! AND NEVER BEFORE HAVE FIGHTERS FACED A WAR WITH SUCH GRIM AND GLORIOUS MAKINGS!

For this IS war, and we are fighters. But we no longer fight as ignorant under-dogs. We fight as men—men who mean fight for the world which they have made. AND WE HAVE THE MAKINGS OF VICTORY!

Remember that, when times seem desperate—when life seems to have lost all pride, and power, and purpose. You suffer, yes. But you do not suffer as an individual failure; as a shameful derelict. You suffer as a brave man accepting the inevitable hardship of the trenches. The hour has come! Get ready to go over the top!

WE ARE NOT THE UNEMPLOYED! You are part of the most powerful offensive the world has ever known. Be proud of that! Accept your duty as a brave man accepting the inevitable hardship of the trenches. The hour has come! Get ready to go over the top!

THIS IS OUR WAR! LET'S GO!

Human Side of the News

By Edwin C. Hill

Geneva Conference Folds Up; Simon Lake's Submarine; Fulton's "U-Boat"

The Disarmament Conference of Geneva, after nearly two years of futile talk, folds up its tents and starts its journey home. It is a pretty simple one and a pretty vicious one.

It says that some of the carpenters, in return for getting their jobs and keeping them, are compelled to render a substantial part of their wages to their employers.

This allegation, if it is true, discloses the revival of the padrone system here in a civilized state where honest labor is supposed to have some rights and where it is always entitled to protection from abuse.

The worker is entitled to the wage which is written into the contract supposed to govern public works. We heard a good deal in the past about the "high wages" of carpenters, but we never heard much about the days and after weeks and months, when the hard winter weather of New England forced them off their jobs with the consequent loss of revenue to support their women and children at home.

There is one other phase to be taken into consideration. These public works originated out of the generosity of the American taxpayers. They were conceived with the idea of putting idle men to work, to take them off the dole list and to supply them with an income which would make them consumers and thereby hasten the return of general prosperity.

So, if the charges are true, not only have the workers been victimized but the American public as well.

Now a Wage Racket Trouble on Salem Postoffice

The federal grand jury, it is said, will investigate an alleged racket in connection with the construction of the new postoffice at Salem.

The allegation is a pretty simple one and a pretty vicious one.

It says that some of the carpenters, in return for getting their jobs and keeping them, are compelled to render a substantial part of their wages to their employers.

This allegation, if it is true, discloses the revival of the padrone system here in a civilized state where honest labor is supposed to have some rights and where it is always entitled to protection from abuse.

The worker is entitled to the wage which is written into the contract supposed to govern public works. We heard a good deal in the past about the "high wages" of carpenters, but we never heard much about the days and after weeks and months, when the hard winter weather of New England forced them off their jobs with the consequent loss of revenue to support their women and children at home.

There is one other phase to be taken into consideration
